

# Create a Google API Project.

1. Go to the [Google Cloud Platform Console](https://console.developers.google.com/) and sign in as a super administrator. If this is your first time signing in to the console, agree to the Terms of Service.

<https://console.developers.google.com/>

2. Click IAM & admin > Manage resources. You might have to click Menu first.

3. At the top of the screen, click Create Project.
